Pricing

We have made it as easy as possible for you to see what your website will cost and what you will get for your money. You can simply pick one of our packages or build your own website package (just like a build your own pizza!) choosing only the pages and elements you require.

A non-refundable deposit of £50 secures your order and gets your website underway.

Your £50 deposit includes

- Personal domain name eg www.sarahandtom.com
- WHOIS privacy for your domain name*
- Web hosting for 1 year**
- Registration with Google and other search engines if desired, or hidden if you prefer
- Website set-up
- Homepage

*The WHOIS database is a global public register of who owns/has purchased a website domain name. It is possible to pay a fee to hide your details on this register. When we purchase your domain name for you we always opt to hide your details and pay this fee for you. It is included in your website purchase with us. For more information on what this is please see <https://whois.icann.org/en/about-whois>

**Should you wish to maintain your website for longer than 1 year, it will be necessary to set up a direct debit with the company that manages your domain name and web hosting (we can help you do this.) Currently, they charge £36/year for this service.

Need your website ASAP?

Add Priority Service to your cart for £75 and we guarantee your website will be completed within 10 days of receiving copy and images from you.

The small print

Adding extra pages to your website

Extra pages can be added to your website at any time (even after the website is finished) and are charged at £40 for regular pages and £65 for specialty pages.

Upgrading pages on your website

You can upgrade any basic version of a website page to an advanced version of the page at any time (even after your website is finished) for £35.

You can upgrade to advanced versions of the following pages:

- RSVP Advanced
- Menu Advanced
- Gift List Advanced

Unused pages on your website

Unfortunately, we cannot offer any refund on pages you don't end up using (but we will hide them so you don't have blank pages on your site!)

Changes and modifications

Once the website is completed you have 30 days to submit any minor changes to copy or images you require. You can still add additional pages or upgrade to advanced versions of pages even after your website is completed at the costs shown above.

Discounts

Please note the discounts of 5% for orders over £250 and 10% for orders over £350 can only be applied when completed as one single transaction. If your original order value is £230 and then you later purchase an additional page making the total spend £270 you will not receive the 5% discount.

After sales service

Once your website has been created, remember, we are still here to help and support you!

We provide 30 days after sales service where you can let us know any minor changes you would like to make to the copy or images used on your website. After the 30 days we will provide you with basic guidelines on how to modify copy on the pages yourself (because we understand that things can still change right up until the big day!)

You can call or email us if you would like to add more pages, upgrade existing pages or delete any pages on your website.

We understand the temptation to add, modify and play around with your website once you have full control. However, if things get messed up as a result of your modifications and you need us to put things right, we are happy to help, but do charge a fee of £50/hr for this service.

Who we are

Hi, I'm Poppy, owner of Simple Wedding Websites and maker of your unique, custom-made website.

When my sister and her husband planned their dream destination wedding in a rural chateau in France, they knew their guests needed information on their wedding venue, nearby accommodation, travel and transport options and a whole heap of other things. They also quickly realised how many times they were repeating the same information over and over to guests and how much of their own time this was taking up. A website with all the info guests could need was the only option and I was quickly roped in to create it!

Not too long after this, a few other friends seized upon my techy skills and asked me to create their wedding websites too. Thus, the ball started rolling for Simple Wedding Websites... Originally from London, I now live and work primarily in sunny Barcelona and like nothing more than helping happy couples create bespoke websites for their big day.
